Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A method of providing underwriting and/or servicing of an financial account, comprising the steps of:

receiving account application information including a bank account information; validating the received bank account information comprising the steps of:

depositing at least one deposit amount to the bank account corresponding to the received bank account information;

receiving a deposit verification amount; and

comparing the received deposit verification amount with the deposited at least one deposit amount; and

generating a financial account corresponding to the received account application information, where the financial account is electronically linked to the bank account.

- 2. (Original) The method of claim 1 further including the step of receiving a periodic debit transaction amount.
- 3. (Original) The method of claim 2 wherein the periodic debit transaction amount is configured to be periodically debited from the bank account electronically to the financial account.
- 4. (Original) The method of claim 3 wherein the periodic debit transaction is performed at 30 day interval.
- 5. (Original) The method of claim 2 wherein the periodic debit transaction amount includes one of a full balance of the financial account, a minimum payment amount of the

financial account, and a minimum payment amount of the financial account plus a predetermined payment amount.

- 6. (Original) The method of claim 1 further including the step of performing credit verification based on the received account application information.
- 7. (Original) The method of claim 6 wherein the step of performing credit verification includes the steps of:

transmitting the account application information to a credit bureau; and receiving a credit history information corresponding to said transmitted account application information.

- 8. (Original) The method of claim 7 wherein the credit history information includes a numeric representation of the account application information.
- 9. (Original) The method of claim 1 wherein the financial account is a credit card account.
- 10. (Previously Presented) The method of claim 1 further including the step of generating a financial account default notification when the balance amount of the linked bank account falls below a predetermined minimum level.
- 11. (Original) The method of claim 10 further including the step of transmitting said financial account default notification.
- 12. (Currently Amended) A system for providing underwriting and/or servicing of an financial account, comprising:
 - a data network;

a user terminal operatively coupled to said data network configured to transmit and receive data therefrom;

a server terminal operatively coupled to said data network, said server terminal further configured to:

receive account application information including a bank account information from said user terminal;

validate the received bank account information comprising the steps of:

deposit depositing at least one deposit amount to the bank account corresponding to the received bank account information;

receive receiving a deposit verification amount from said user terminal; and

compare comparing the received deposit verification amount with the deposited at least one deposit amount; and generate a financial account corresponding to the received account application information, where the financial account is electronically linked to the bank account.

- 13. (Original) The system of claim 12 wherein the server terminal is further configured to receive a periodic debit transaction amount from the user terminal.
- 14. (Currently Amended) The system of claim 13 wherein the server terminal is configured to periodically <u>debit</u> <u>debited</u> said periodic debit transaction amount from the linked bank account electronically to the financial account.
- 15. (Previously Presented) The system of claim 14 wherein the periodic debit transaction is performed at 30 day interval.
- 16. (Previously Presented) The system of claim 13 wherein the periodic debit transaction amount includes one of a full balance of the financial account, a minimum payment amount of the financial account, or a minimum payment amount of the financial account plus a predetermined payment amount.

17. (Original) The system of claim 12 wherein the server terminal is further configured to:

transmit the account application information to a credit bureau; and receive a credit history information corresponding to said transmitted account application information.

- 18. (Original) The system of claim 12 wherein the financial account is a credit card account.
- 19. (Original) The system of claim 12 wherein the server terminal is configured to:
 generate a financial account default notification when the balance amount of the
 linked bank account falls below a predetermined minimum level; and
 transmit said account default notification to the user terminal.
- 20. (Currently Amended) A program storage device readable by a machine, tangibly embodying a program of instructions executable by the machine to perform a method of providing underwriting and/or servicing of a financial account, comprising the steps of: receiving account application information including a bank account information; validating the received bank account information comprising the steps of:

depositing at least one deposit amount to the bank account corresponding to the received bank account information;

receiving a deposit verification amount; and

comparing the received deposit verification amount with the deposited at least one deposit amount; and

generating a financial account corresponding to the received account application information, where the financial account is electronically linked to the bank account.
